- 7) There were some suggestions regarding the event form students' side such as-
- E- certificate to be given to the student who participated in the program, for their benefit.
 - Teacher should give directions to each individual committees so that when one committee is doing the majority of work the other committee works aren't neglected or unnoticed.
 - Events should keep happening this increases confidence level.
 - More such events to be organized which will help students to gain knowledge and confidence in them.
 - Every student should get the opportunity to participate in the program.
 - Further all the future programs to be managed by students to improve their managing skills and overall development.
 - Hindi medium students should also get the opportunity to become the MOC and lead the program.
 - Such program should be organized every month.
 - The overall budget of the events to be increased.
